Dear Mr. Woolsley:

Division of Water Pollution Control personnel conducted a Compliance Evaluation Inspection at Broken Circle Farm on December 7, 2010. The following deficiencies were noted at this time:

The Broken Circle Farm General Permit # TN000108 has expired. Communication with Water Pollution Control section in Nashville revealed you have received an application to apply for coverage under the State Operating Permit for CAFO's. The application (NOI) and required Nutrient Management Plan/Closure Plan, have not been received for processing by our Nashville Permit Section. This information must be submitted as soon as possible in order to obtain coverage under the State Operating Permit.
